

Completing your HSA setup

After you enroll in an HSA-eligible health plan, Fidelity® initiates the opening of your Health Savings Account (HSA). All that's left for you to do is **activate your account on NetBenefits®**.¹

How to activate your HSA

1. Look for an email from Fidelity, or sign in to **NetBenefits**.
2. Review your personal information and accept the Fidelity HSA Terms and Conditions.
3. Review and complete any additional actions.

Most people complete these steps in about a minute. The guided experience on **NetBenefits®** walks you through each step and suggests helpful additional actions.

What happens next

- You'll receive your HSA debit card after your account is initiated.
- Be sure the card *and* your account are activated so you can start using your HSA right away.
- Once activated, you can:
 - Access your funds
 - Start investing
 - Explore tools and ways to get more from your HSA

Not interested in using your HSA?

No problem—no action needed.
